

Halloween Goodie Bag

Materials:

- For the front and back of the Goodie Bag you will need two pieces of Smart-Fab Cut Sheets 9x12 (we used cream).
- To attach the front and back of the Goodie Bag you will need one strip of Smart-Fab thirty-four inches by one and three quarter inches (we used orange).
- Two strips of Smart-Fab for stitching the Goodie Bag together, fifty-seven inches by one half inch (we used brown).
- For the handles of the Goodie-Bag you will need two strips of Smart-Fab, fifteen inches by two inches (we used orange - the same color as the sides of the bag).
- Two strips of Smart-Fab, fifteen inches by one half inch (we used brown - the same color as the stitching).
- Several sheets of paper
- Marker
- Tape measure or ruler
- Hole puncher
- Scissors
- Staple gun
- Fabric Glue

Preparation:

To prepare the front and the back of your Goodie Bag you will need the two cream Smart-Fab Cut Sheets, a piece of regular paper, and the hole punch. Take one of the cream Smart-Fab Cut Sheets, and going down one of the twelve inch sides, make a mark at each inch, continuing around three sides. **The mark must be at least one quarter inch away from the edges of the Smart-Fab.**

You now need to prepare the orange strip of Smart-Fab that is thirty-four inches by one and three quarter inches that will be used to attach the front and back of the Goodie Bag. The holes need to be in the same place as the holes you made on the two cream Smart-Fab Cut Sheets. You need two holes across from each other all the way down the strip. Also use a piece of paper under this strip as you punch the holes.

Place the cream Smart-Fab Cut Sheet that you marked on top of the second Smart-Fab Cut Sheet. Using a piece of paper under both of them, (for support) punch holes through them on top of the marks you made. Be sure the mark is in the center of the hole you a making.

To prepare the handles of your Goodie Bag you need to glue one of the two brown strips of Smart-Fab fifteen inches by one half inches, down the center of each of the orange strips of Smart-Fab, fifteen inches by two inches.

Procedure:

To assemble your bag you will need the two strips of brown Smart-Fab that are fifty- seven inches by one half inch, along with the two cream Smart-Fab Cut Sheets and the strip of orange Smart-Fab in which you punched the holes.

Line up the holes of the orange strip on top of the holes on one of the pieces of the cream Smart-Fab Cut Sheets. Using the brown strips, thread one through the first holes at the top of one corner going into the cream Smart-Fab Cut Sheets first and then bringing it up through the orange strip. Leave about four inches hanging on the cream Smart-Fab Cut Sheets side to be used later. Bring the brown strip around the outside and go under into the next hole on the cream Smart-Fab Cut Sheet side below. Continue stitching around all three sides. You should have at least four inches left over when you finish.

inches hanging on the cream Smart-Fab Cut Sheets side to be used later. Bring the brown strip around the outside and go under into the next hole on the cream Smart-Fab Cut Sheet side below. Continue stitching around all three sides. You should have at least four inches left over when you finish.

To attach the other piece of your bag, place the open holes of the orange strip over the holes of the second piece of the cream Smart-Fab Cut Sheets and stitch the same way you did above. Be sure to leave four inches at the beginning and the end of your stitching.

When your stitching is finished, tie bows at the top of each of the sides. You can now use Smart-Fab Cut Sheets 9x12 to decorate your Halloween Goodie Bag. Just trace decorations or lettering onto the Smart-Fab Cut Sheets, cut out, and attach easily with fabric glue.

Your last step is to attach the handles to your Goodie Bag.

With fabric glue attach one handle to the front of the bag and one handle to the back. Leave about one and one-quarter inches in between the two parts of the handles. Be sure to glue the handles inside the bag with the brown decorative strips showing.

YOUR HALLOWEEN GOODIE BAG IS READY!
